Board of Selectmen

Town of Limington

Limington, Maine

Gentlemen:

In accordance with your request, we have audited the records of the Town of Limington, for the municipal year ended February 10, 1954.

This examination was made in accordance with generally accepted auditing standards, and included all procedures which we considered necessary. Insofar as could be determined, within the scope of the examination, the financial affairs of the Town appear to have been administered in a proper manner.

The results of the audit are disclosed in the exhibits and schedules embodied in this report, and fairly presents the financial position of the Town of Limington, and the results of its operation for the municipal year ended February 10, 1954.

Respectfully submitted,
L. EVERETT OUTHOUSE

SCHOOL REPORT

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and citizens of the town of Limington:

It is a pleasure to present this report. This has been an eventful year with the realization of a new consolidated elementary school building. With the new school there are many educational advantages which have come to the youth of the town. Perhaps the greatest single gain will come to the children through opportunities for greater achievement in school work. Two grades per room, per teacher, cannot fail to make possible an improved program of instruction and greater individual pupil progress. Now, all the children in town have the same advantages of the same program so that as progression takes them on into the secondary school they will have had equal preparation. From year to year we may expect to realize a higher standard of school work which will extend itself on through all grades of the public school system.

At the new school the pupils and teachers have adjusted themselves very well and the program is now well under-way. Many other features of the new organization provide greater opportunities to develop the several needs of children through training in daily living experiences. For example, the school lunch program provides an excellent living experience by means of which children may be taught good habits of personal conduct, as well as, the importance of proper diet and the value of correct foods. This is all in addition to the direct healthful benefits gained by having a hot nourishing meal each day at noon.

With reference to the school lunch program which was started September 14, 1953 and later expanded to include the Academy students on January 11, 1954, the following may be of interest. For twenty cents daily a pupil may purchase a hot meal consisting of at least 2 ounces protein food, $\frac{3}{4}$ cup of vegetable, potato, $\frac{1}{2}$ pint of milk (as a beverage), bread and butter and a dessert. A child may bring his own lunch and purchase $\frac{1}{2}$ pint of milk for six cents. The boys and girls who help out in the

kitchen each day are furnished a meal in exchange for their labor. Each day some children are served the meal free of charge. They are usually children from large families and are selected by the teachers. These free meals are made possible by the commodities donated by the U. S. Department of Agriculture and the government subsidy of $5\frac{3}{4}$ cents for each one-half pint of milk served with a complete meal. Some of the surplus commodities have been: frozen hamburg, creamery butter, beef and gravy, peanut butter, honey, canned peaches, cheese, dried milk, dry kidney and pea beans, orange juice, grapefruit sections, canned tomatoes and dried apricots. With this support by the National School Lunch Program, an appropriation of \$1500, a donation of \$200 by the Maine Tuberculosis Association for equipment and a donation of \$80 by the Parents-Teachers Club for cooking utensils, we have operated our program thus far, paying for all equipment, labor and supplies. Additional information about the school lunch program may be found elsewhere in this report.

The Academy has continued to improve its program with emphasis on the academic needs of the pupils. To secure continued approval of our Agricultural Course it was necessary to provide improved farm shop facilities. By converting the Longfellow building to a school shop and with the aid of an appropriation of \$800 for tools and equipment we have made a good beginning toward meeting the requirements of an acceptable and adequate shop department. It should be noted here that the boys of the school under the direction of their teacher have contributed much by building work benches and arranging the general shop lay-out.

Under the nature of repairs it is only necessary to state that no major projects have been effected. Minor repairs at the Academy buildings seem to be a constant necessity.

Next year some of our teachers are going to benefit by the minimum salary law passed by the 96th Legislature. For this reason and also because of high elementary conveyance costs it will be necessary to request a larger appropriation for educational needs for the en-

suing year. There has been no decline in costs of food, clothing and services. There appears to be no decline in the cost of education.

In closing please allow me to express appreciation for the opportunity of assisting in the administration of the school work.

Respectfully submitted,

MELVILLE H. JOHNSON

**REPORT OF THE PRINCIPAL OF
LIMINGTON ACADEMY**

To the citizens of the Town of Limington:

Through the special funds you people made available and the efforts of the school administration agriculture shop facilities now located in the old Longfellow

school building are such that we invite your inspection. Please drop in and look over this major investment of yours on Town Meeting day. Many interior installations, conveniences and instructional aids will be worked out as instructional projects as the boys gain fundamental knowledge of skills necessary to perform these jobs.

The excellent hot-lunch program has the enthusiastic endorsement of the majority of the academy enrollment.

Our textbook needs have been heavy this year due to the fact that the enlarged enrollment required increases in text numbers. It was necessary, in many cases, to secure entirely new texts as copies of texts on hand were no longer in print. Though perhaps initially expensive, the adoption of these up-to-date texts has enriched our Language, Mathematics and Social Science courses.

Twelve new arm-style seats are truly appreciated in the much-used English room. These additions, together with a few usable units from the one-room schools, have greatly relieved our seating problems.

The Academy yearbook is now being mimeographed by the student body. Photography and binding are taken to a commercial concern. For a fine job of typing the stencils we wish to thank Mrs. Virginia Brackett. It is hoped that this endeavor may progress such as to develop many student skills and talents without interfering with an effective academic program.

Limington Academy was represented in the Union Spring Music Festival for the first time. However, attempts to provide instruction in instrumental music have not been too successful, perhaps due, in part, to the fact that piano instruction has not been included. It would indeed be heartening to learn that some competent trained citizen could offer private lessons to our young people, as it would appear that there is considerable undeveloped musical talent among this group.

The enthusiastic support of those who so unselfishly gave direct financial aid for outfitting the Academy baseball team last spring will be appreciated for many seasons.

You should be proud to note that of a class of eight graduated in June, two of this number have gone for

further academic study. The trend of the times seems to indicate a necessity for more of our young people to prepare themselves beyond the secondary school in either college or vocational training that all may be gainfully occupied. In this respect, Limington is not lagging behind.

It is intended to continue, in improved form, the program of pre-registration initiated last spring. This provides orientation to all classes including the incoming group and offers valuable estimates of fall textbook and supply needs.

Although my report has included primarily the academic and physical accomplishments, a true measure of progress should be measured by the spiritual and social development, the attitudes and values demonstrated in the daily life of your young people. By these you may judge the success or failure of the Academy program.

REPORT OF HEALTH OFFICER

To the Honorable Board of Selectmen:

Colds, chickenpox and mumps have been more prevalent this year than they have for several years, among both children and adults.

The following communicable diseases reported during the past year:

Mumps	65
Chickenpox	42
Measles	10
Pneumonia	7
Scarlet Fever	3

We have had freedom from Diphtheria, Whooping Cough and Smallpox. This freedom has not come about by itself. It is due to a periodic, never-ending campaign of immunization.

Vaccination against Smallpox is not an empty gesture; it is an important measure for the protection of health.

There will be an immunization clinic in town this spring. Smallpox vaccination and immunization against Diphtheria, Whooping Cough and tetanus will be offered free. Everyone in town is welcome to attend.

Sincere thanks go to everyone who has reported and helped in the control of communicable diseases.

Respectfully submitted,

NELLIE P. SAWYER, R. N.

Health Officer.

I herein submit a brief report of service rendered the town of Limington by the York County Tuberculosis And Health Association for the period beginning January 1, 1953 to January 1, 1954.

The purpose of our program is to promote good health among the citizens of Limington; to help the family attain and maintain physical and mental well being and teach health measures aimed at reducing illness and preventing disease, and the value of periodic health examinations with a chest x-ray.

SCHOOL HEALTH PROGRAM: The nurse in the school is concerned with all phases of health in the children of school age. An accurate, detailed health history

is kept up to date, with a school health card.

Health inspections completed in all grades:

Number of pupils examined	135
Number of pupils with no dental defects	33
Number of pupils with defective teeth	
(deciduous)	70
(permanent)	65
Number of pupils with defective throat	10
Number of pupils with defective vision	6
Number with scabies	4
Number with impetigo	?
Number with evidence of pediculi	4

Home calls made because of skin diseases and pediculi. These conditions cleared up readily and the children back to school.

Number of pupils with the following corrections during the year:

Teeth	19
Vision	5
Throat	1

42 home visits were made regarding individual health problems and communicable diseases.

With many thanks to school officials, parents and town officers for their cooperation throughout the year.

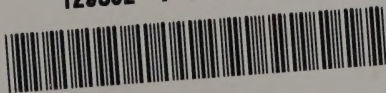

Respectfully submitted,

York County Tuberculosis & Health Association
